

JOBY® gorillapodSLR™

PRODUCT OVERVIEW

The Gorillapod SLR features sturdy prehensile legs that help you get a steady shot in virtually any environment. Its compact size means it can go anywhere and everywhere, and the quick-release plate makes setup a snap. Whether you're shooting time-lapse photos with your SLR or capturing videos with your camcorder, the Gorillapod SLR is the perfect companion for your next great adventure.

PRODUCT FEATURES

- **Flexible, wrappable legs** allow you to secure your lightweight SLR cameras and camcorders weighing up to 1.75lbs (800g) to virtually any surface, enabling you to capture shots you never could before.
- **Over two dozen flexible leg joints** bend and rotate 360°; rubberized ring and foot grips provide enhanced stability in difficult terrain.
- **The slim-line quick-release clip with bubble level** stays connected to your camera and snaps into the Gorillapod for instant setup and perfectly level shots every time.
- **A lock ring** provides extra security to ensure your camera is safely attached.
- **The Gorillapod uses high quality injection molded plastic** for snug joints that stay firm after lots of action.

NEW!
The Gorillapod SLR
now features a
built-in bubble level.
