

JOBY® gorillapod SLR-ZOOM™

PRODUCT OVERVIEW

The Gorillapod SLR-Zoom is designed for serious photographers. Its sturdy prehensile legs help you achieve a steady shot with your SLR camera and zoom lenses. It attaches to any virtually any SLR, video camera, or tripod head. The Gorillapod SLR-Zoom can support an impressive 6.6 pounds, yet it is remarkably compact and lightweight.

Whether you're using your SLR camera to shoot time-lapse photos, get up close with a macro lens, capture your daughter's winning goal from the sidelines, or snap images for the local newspaper, the Gorillapod SLR-Zoom is the perfect companion for your next adventure. Throw one in your bag and start shooting like a pro!

PRODUCT FEATURES

- **Flexible, wrappable legs** allow you to secure professional camera equipment weighing up to 6.6lbs (3kg) to virtually any surface, expanding the range of shots you are capable of capturing.
- **Over two dozen flexible leg joints** bend and rotate 360°; rubberized ring and foot grips provide enhanced stability in difficult terrain.
- **The Gorillapod uses high quality injection molded plastic** for snug joints that stay firm after lots of action.
- **An included 3/8" adapter screw** allows you to mount both cameras and professional tripod heads. Check out the Joby Ballhead to get even more out of your Gorillapod (available separately or bundled with the Gorillapod SLR-Zoom).
- **The portable, packable, heavy-duty tripod** keeps your telephoto steady even when you're on the go.
