

PROFESSIONAL SERIES

# JOBY® gorillapod FOCUS™

## PRODUCT OVERVIEW

The strongest, largest Gorillapod yet, the Gorillapod Focus is designed with the professional photographer in mind. Its machined aluminum sockets offer incredible flexibility while ensuring a rock-solid hold in almost any environment. Best of all, the Gorillapod Focus supports a whopping 11.1 pounds! Like Joby's entire family of Gorillapods, the Focus is cleverly designed to help you capture the perfect shot in the most demanding environments. Wrap it around a railing, hang it from a tree, or use it in the studio – the Gorillapod Focus provides the stability of a professional tripod at a fraction of the size and weight. It is durable and strong enough to meet the demands of professional photographers anywhere and everywhere.

## PRODUCT FEATURES

- **Flexible, wrappable legs** allow you to secure equipment weighing up to 11.1lbs (5kg) to virtually any surface, enabling you to capture shots you never could before.
- **Compact and lightweight**, the Gorillapod Focus is the ideal camera accessory for the professional photographer on-the-go.
- **Sturdy machined aluminum sockets** ensure that joints stay firm even after repeated use.
- **High quality injection molded leg joints** bend and rotate 360°; rubberized ring and foot grips provide enhanced stability in difficult terrain.
- **An included 3/8" adapter screw** allows you to mount both cameras and professional tripod heads.
