

# JOBY® gorillapod GO-GO!™

## PRODUCT OVERVIEW

The Joby Gorillapod Go-Go!™ is a mobile entertainment kit designed to allow users to hold, position, or attach a variety of electronic devices anywhere on the go. From cell phones to PDAs to MP3s to digital cameras, the Gorillapod Go-Go! works with virtually every mobile device in practically any situation. Each Gorillapod Go-Go! package includes a Joby Gorillapod™ flexible tripod, a standard 1/4-20 screw for digital cameras, a high-quality suction cup that holds firm on most surfaces, and two quick release clips with double-stick adhesive for a more permanent hold. The Gorillapod Go-Go! is a must have accessory for anyone looking for an extra hand!

## PRODUCT FEATURES

- The Gorillapod Go-Go! holds cell phones, MP3 players or GPS devices securely while driving – allowing users to conduct hand-free calls, change songs and view directions safely and conveniently
- The Gorillapod Go-Go! is compatible with portable gaming devices or video players, so users can place devices in optimal viewing positions
- The Gorillapod Go-Go! enables optimal positioning of PC web-cams, allowing users to enhance their video communications
- Utilizing the Go-Go!'s high-quality suction cup, consumers can position their mobile phones or PDAs on a desk to view incoming calls or place calls using the speaker function
- The Gorillapod's flexible, bendable legs will secure cameras or mobile phones with cameras to virtually any surface

- The Gorillapod Go-Go! pack is suitable for mobile phones, PDAs, MP3/MP4 players, PC web-cams, portable gaming devices, digital cameras, and GPS systems

## THE GORILLAPOD GO-GO! PACK INCLUDES:

- One Joby Gorillapod flexible tripod made up of 29 fully articulating ball-and socket joints, allowing users to bend and twist them into any shape for best viewing angle and ensuring the perfect fit
- One quick release clip with a high-quality suction cup custom engineered to provide a vacuum tight hold to virtually any flat surface that can be removed easily without damage to the device
- One quick release clip with a standard 1/4-20 screw for digital cameras
- Two super-bond adhesive quick release clips for permanent device placement
